# About the lists

Using top hashtags correctly on LinkedIn has a significant impact on content classification, reach and topic visibility.

I have manually updated and checked the Top 600 LinkedIn hashtags of Followers as of 20 January 2022. This is a new format and extension from my last research of the top 400 hashtags in April 2020. I have created 2 lists for easy reference:

**Numerical**      Pages    3 - 21

**Alphabetical**    Pages    22 - 40

## General Tips

- **Max 5 hashtags per post**
- LinkedIn hashtags are structured and used very differently than Instagram, Twitter and Facebook and must be used very carefully. Optimum results are driven by strategic topic and business alignment.
- Check Plurals & Metrics - i.e: Career **vs** Careers
- Check Abbreviations & Metrics - ie: Public Relations **vs** PR
- LinkedIn recommend 3 hashtags per post - but up to 5 is fine .
- The first 3 hashtags are used in the post URL string so make sure you use the best ones first.
- DON'T over-use & hashtag stuff. Adding 20, 30, 40+ hashtags makes you look desperate, unfocussed and unclear of topic value. The AI can also classify posts with high numbers of hashtags as SPAM
- DON'T try and think up quirky or obscure hashtags. Don't put hashtags on common words or fluffy titles. Check if they have a solid Follower count.
- Creator Mode: Launched to support content creators and increase organic conversations and audience reach. Members can list up to five hashtags of the topics talked about (written) under the headline.

Enjoy using the lists and elevating visibility and impact of your LinkedIn content. And please do let me know how the research and lists have helped you.
